

Grokking the Coding Interview: Patterns for Coding Questions

Estimated completion time: 50h

Certificate Included

COURSE BY:

Design Gurus

182 Lessons

125 Challenges

1063 Playgrounds

214 Illustrations

Part of our Curated Interview Prep Paths

Take this course as part of a comprehensive learning path. Cover everything you'll need to nail your interviews with confidence.

Course Overview

Coding interviews are getting harder every day. A few years back, brushing up on key data structures and going through 50-75 coding interview questions was more than enough prep for an interview. Today, everyone has access to massive sets of coding problems, and they've gotten more difficult to account for that. The pr... [See more](#)

You can claim your course certificate upon course completion. You would be able to use this certificate on your **resume, LinkedIn profile or your website.**

Access Expires: 10 Sep, 2021

- Maximum Sum Subarray of Size K (easy)
- Smallest Subarray with a given sum (easy)
- Longest Substring with K Distinct Characters (medium)
- Fruits into Baskets (medium)
- No-repeat Substring (hard)
- Longest Substring with Same Letters after Replacement (hard)
- Longest Subarray with Ones after Replacement (hard)
- Problem Challenge 1
- Solution Review: Problem Challenge 1
- Problem Challenge 2
- Solution Review: Problem Challenge 2
- Problem Challenge 3
- Solution Review: Problem Challenge 3
- Problem Challenge 4
- Solution Review: Problem Challenge 4

3. Pattern: Two Pointers

- Introduction
- Pair with Target Sum (easy)
- Remove Duplicates (easy)
- Squaring a Sorted Array (easy)
- Triplet Sum to Zero (medium)
- Triplet Sum Close to Target (medium)
- Triplets with Smaller Sum (medium)
- Subarrays with Product Less than a Target (medium)
- Dutch National Flag Problem (medium)
- Problem Challenge 1
- Solution Review: Problem Challenge 1
- Problem Challenge 2
- Solution Review: Problem Challenge 2
- Problem Challenge 3
- Solution Review: Problem Challenge 3

4. Pattern: Fast & Slow pointers

- Introduction
- LinkedList Cycle (easy)
- Start of LinkedList Cycle (medium)
- Happy Number (medium)
- Middle of the LinkedList (easy)
- Problem Challenge 1
- Solution Review: Problem Challenge 1
- Problem Challenge 2
- Solution Review: Problem Challenge 2
- Problem Challenge 3
- Solution Review: Problem Challenge 3

5. Pattern: Merge Intervals

- ☒ Introduction
- ☒ Merge Intervals (medium)
- ☒ Insert Interval (medium)
- ☒ Intervals Intersection (medium)
- ☐ Conflicting Appointments (medium)
- ☐ Problem Challenge 1
- ☐ Solution Review: Problem Challenge 1
- ☐ Problem Challenge 2
- ☐ Solution Review: Problem Challenge 2
- ☐ Problem Challenge 3
- ☐ Solution Review: Problem Challenge 3

6. Pattern: Cyclic Sort

- ☐ Introduction
- ☐ Cyclic Sort (easy)
- ☐ Find the Missing Number (easy)
- ☐ Find all Missing Numbers (easy)
- ☐ Find the Duplicate Number (easy)
- ☐ Find all Duplicate Numbers (easy)
- ☐ Problem Challenge 1
- ☐ Solution Review: Problem Challenge 1
- ☐ Problem Challenge 2
- ☐ Solution Review: Problem Challenge 2
- ☐ Problem Challenge 3
- ☐ Solution Review: Problem Challenge 3

7. Pattern: In-place Reversal of a LinkedList

- ☐ Introduction
- ☐ Reverse a LinkedList (easy)
- ☐ Reverse a Sub-list (medium)
- ☐ Reverse every K-element Sub-list (medium)
- ☐ Problem Challenge 1
- ☐ Solution Review: Problem Challenge 1
- ☐ Problem Challenge 2
- ☐ Solution Review: Problem Challenge 2

8. Pattern: Tree Breadth First Search

- ☐ Introduction
- ☐ Binary Tree Level Order Traversal (easy)
- ☐ Reverse Level Order Traversal (easy)
- ☐ Zigzag Traversal (medium)
- ☐ Level Averages in a Binary Tree (easy)
- ☐ Minimum Depth of a Binary Tree (easy)
- ☐ Level Order Successors (easy)

 Level Order Successor (easy)

 Connect Level Order Siblings (medium)

 Problem Challenge 1

 Solution Review: Problem Challenge 1

 Problem Challenge 2

 Solution Review: Problem Challenge 2

9. Pattern: Tree Depth First Search

 Introduction

 Binary Tree Path Sum (easy)

 All Paths for a Sum (medium)

 Sum of Path Numbers (medium)

 Path With Given Sequence (medium)

 Count Paths for a Sum (medium)

 Problem Challenge 1

 Solution Review: Problem Challenge 1

 Problem Challenge 2

 Solution Review: Problem Challenge 2

10. Pattern: Two Heaps

 Introduction

 Find the Median of a Number Stream (medium)

 Sliding Window Median (hard)

 Maximize Capital (hard)

 Problem Challenge 1

 Solution Review: Problem Challenge 1

11. Pattern: Subsets

 Introduction

 Subsets (easy)

 Subsets With Duplicates (easy)

 Permutations (medium)

 String Permutations by changing case (medium)

 Balanced Parentheses (hard)

 Unique Generalized Abbreviations (hard)

 Problem Challenge 1

 Solution Review: Problem Challenge 1

 Problem Challenge 2

 Solution Review: Problem Challenge 2

 Problem Challenge 3

 Solution Review: Problem Challenge 3

12. Pattern: Modified Binary Search

 Introduction

 Order-agnostic Binary Search (easy)

 Ceiling of a Number (medium)

◀ [Finding a Number \(medium\)](#)

☐ [Next Letter \(medium\)](#)

☐ [Number Range \(medium\)](#)

☐ [Search in a Sorted Infinite Array \(medium\)](#)

☐ [Minimum Difference Element \(medium\)](#)

☐ [Bitonic Array Maximum \(easy\)](#)

☐ [Problem Challenge 1](#)

☐ [Solution Review: Problem Challenge 1](#)

☐ [Problem Challenge 2](#)

☐ [Solution Review: Problem Challenge 2](#)

☐ [Problem Challenge 3](#)

☐ [Solution Review: Problem Challenge 3](#)

13. Pattern: Bitwise XOR

☐ [Introduction](#)

☐ [Single Number \(easy\)](#)

☐ [Two Single Numbers \(medium\)](#)

☐ [Complement of Base 10 Number \(medium\)](#)

☐ [Problem Challenge 1](#)

☐ [Solution Review: Problem Challenge 1](#)

14. Pattern: Top 'K' Elements

☐ [Introduction](#)

☐ [Top 'K' Numbers \(easy\)](#)

☐ [Kth Smallest Number \(easy\)](#)

☐ ['K' Closest Points to the Origin \(easy\)](#)

☐ [Connect Ropes \(easy\)](#)

☐ [Top 'K' Frequent Numbers \(medium\)](#)

☐ [Frequency Sort \(medium\)](#)

☐ [Kth Largest Number in a Stream \(medium\)](#)

☐ ['K' Closest Numbers \(medium\)](#)

☐ [Maximum Distinct Elements \(medium\)](#)

☐ [Sum of Elements \(medium\)](#)

☐ [Rearrange String \(hard\)](#)

☐ [Problem Challenge 1](#)

☐ [Solution Review: Problem Challenge 1](#)

☐ [Problem Challenge 2](#)

☐ [Solution Review: Problem Challenge 2](#)

☐ [Problem Challenge 3](#)

☐ [Solution Review: Problem Challenge 3](#)

15. Pattern: K-way merge

☐ [Introduction](#)

☐ [Merge K Sorted Lists \(medium\)](#)

☐ [Kth Smallest Number in M Sorted Lists \(Medium\)](#)

☐ [Kth Smallest Number in a Sorted Matrix \(Hard\)](#)

- ☐ Smallest Number Range (Hard)
- ☐ Problem Challenge 1
- ☐ Solution Review: Problem Challenge 1

16. Pattern : 0/1 Knapsack (Dynamic Programming) ^

- ☐ Introduction
- ☐ 0/1 Knapsack (medium)
- ☐ Equal Subset Sum Partition (medium)
- ☐ Subset Sum (medium)
- ☐ Minimum Subset Sum Difference (hard)
- ☐ Problem Challenge 1
- ☐ Solution Review: Problem Challenge 1
- ☐ Problem Challenge 2
- ☐ Solution Review: Problem Challenge 2

17. Pattern: Topological Sort (Graph) ^

- ☐ Introduction
- ☐ Topological Sort (medium)
- ☐ Tasks Scheduling (medium)
- ☐ Tasks Scheduling Order (medium)
- ☐ All Tasks Scheduling Orders (hard)
- ☐ Alien Dictionary (hard)
- ☐ Problem Challenge 1
- ☐ Solution Review: Problem Challenge 1
- ☐ Problem Challenge 2
- ☐ Solution Review: Problem Challenge 2

18. Miscellaneous ^

- ☐ Kth Smallest Number (hard)

19. Conclusions ^

- ☐ Where to Go from Here

How You'll Learn

Faster than videos

Videos are holding you back. The average video tutorial is spoken at 150 words per minute, while you can read at 250. That's why our courses are text-based.

Hands-on coding environments

You don't get better at swimming by watching others. Coding is no different. Practice as you learn with live code environments inside your browser.

No set-up required

Start learning immediately instead of fiddling with SDKs and IDEs. It's all on the cloud.

Progress you can show

Built in assessments let you test your skills. Completion certificates let you show them off.

What other learners are saying

" The courses which have "grokking" before them, are exceptionally well put together! These courses magically condense 3 years of CS in short bite-size courses and lectures (I have tried System Design, OODI, and Coding patterns). The Grokking courses are godsent, to be honest. "

Mo Jafri

Totally worth it!

" I'm a rising senior at UC Berkeley & just finished my 2nd internship at Google. This course provides the exact details that other coding platforms like LeetCode don't offer. I LOVE that the course is broken up into different "patterns" to develop a deep understanding of problems. "

Riley Shanahan

Better than LeetCode and Cracking the Coding Interview

" Whoever put this together, you folks are life savers. Thank you :) "
